No. 35

**A**N ORDINANCE—Authorizing and directing the issue of bonds to an amount not exceeding one million of dollars for the payment of certain judgments and claims against the City of Pittsburgh, to be known as "Funded Judgment Debt Loan 1906."

Whereas, There exists a floating indebtedness against the City of Pittsburgh, approximating the sum of one million of dollars (\$1,000,000), most of which is reduced to judgment, and which comprises claims growing out of street and sewer improvements, and the construction of Highland Reservoir No. 2; and

Whereas, The corporate authorities of the said city have omitted in the ordinances making appropriations and levying taxes for the fiscal year beginning February 1, 1906, to provide for the payment of said claims from revenues derived from taxation or other ordinary sources of revenue, the intention at the time of the passage of said ordinances being to make proper provision thereafter for their payment, by the issue and sale of bonds; and

Whereas, It is the purpose of this ordinance to make such provision, pursuant to and by authority of the Constitution of the State of Pennsylvania and the Acts of the General Assembly of said State; and

Whereas, In and by an Act of the said General Assembly, entitled "An Act for the government of cities of the second class," approved the seventh day of March, A. D. 1901, It is provided, among other things, that every city of the second class within the State of Pennsylvania shall have power—

"To borrow money on the credit of the city and to pledge the credit and revenue thereof for the payment of the same to an amount not exceeding two per centum upon the assessed value of the taxable property in said city, and with the consent of the people of the said city, obtainable at an election held under the provisions of the Constitution and the General laws of this Commonwealth, to increase the indebtedness of such city to an amount not exceeding, in the aggregate, seven per centum upon the assessed valuation of the taxable property therein;" and

Whereas, In and by an Act of the said General Assembly, entitled "An Act amending and supplementing an Act entitled 'An Act for the government of cities of the second class,' approved the seventh day of March, Anno Domini one thousand nine hundred and one, in the following particulars, to-wit:

approved the 20th day of June, A. D. 1901, it is provided, among other things, that every city of the second class within the State of Pennsylvania shall have power—

"To provide for the issuing of bonds, and for the application of bonds already issued, for the purpose of funding any and all indebtedness now existing or hereafter created, of the city, now due or to become due; provided, that said bonds shall be payable in not less than five years and not more than thirty years from the date of their issue, and that the same shall bear interest at a rate not exceeding six per centum per annum, with interest coupons attached payable annually or semi-annually, and the said bonds shall not be sold or exchanged for less than their par value and accrued interest;"

Now, therefore, In virtue of the power and authority vested in the City of Pittsburgh by the Constitution and laws of the State of Pennsylvania, It is hereby ordained and enacted as follows, to-wit:

Section 1. *Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That* from and after the passage and approval of this ordinance, the Director of the Department of Public Safety is hereby authorized to appoint a chief smoke inspector, who shall be a practical mechanical engineer, and who shall be under the jurisdiction of the Director of the Department of Public Safety. He shall also appoint deputy smoke inspectors, not exceeding three in number, and one stenographer. Neither the chief nor any deputy smoke inspector shall be interested in any way in any method or device for the prevention of smoke or in any company or partnership which is so interested.

Section 2. The salary of the Chief Smoke Inspector shall be \$2,400 per annum, and the salary of each deputy inspector \$1,500 per annum, and the salary of the stenographer \$900 per annum.

Section 3. The chief smoke inspector or his deputies shall have authority to inspect and supervise all boilers or furnaces, either stationary or portable, within the corporate limits of the City of Pittsburgh, and require the same to be so constructed, or if already constructed, to be so altered or have attached thereto such efficient smoke preventives, as to prevent the production and emission of dense black or dense gray smoke therefrom; and shall further have authority to examine and supervise the igniting, stoking, feeding and attending such boiler or other furnace fires, and for that purpose he, or his duly appointed assistants, shall also have authority to enter any steam boiler or engine room, or any building not occupied exclusively as a private residence, from which dense black or dense gray smoke is being emitted and during the preceding 24 hours has been emitted, and any person or persons hindering or obstructing him in the performance of such duty shall be guilty of disorderly conduct.

Section 4. Provided, however, that by such inspection, supervision or approval the city acts simply in an advisory capacity, and does not assume any responsibility for the sufficiency of the apparatus, nor shall it be stopped from proceeding against the parties responsible as defined by law, in case the production and emission of dense black or dense gray smoke from the premises is continued.

Section 5. No steam boiler or boiler furnace shall be constructed within the corporate limits of the City of Pittsburgh until the owner, agent or lessee shall make application at the office of the Chief Smoke Inspector for a certificate for that purpose, and shall furnish a written statement and drawings giving the style and dimensions of such boiler or boiler furnace, together with the height and size of stack or chimney, and the method or device to be adopted for preventing the emission of such dense black or dense gray smoke therefrom shall have been submitted to the Chief Smoke Inspector, and his approval thereof has been obtained; provided, however, that no discrimination shall be exercised for or against any device or method which will prevent the emission of dense black or dense gray smoke.

Section 6. The owner, agent, lessee or occupant of any building or structure of any description, from the smoke stack or chimney of which there shall issue or be emitted such dense black or dense gray smoke, within the corporate limits of the City of Pittsburgh, the general manager and superintendent, or fireman, having charge of any boiler within the City of Pittsburgh, from the smoke stack or chimney from which there shall issue dense black or dense gray smoke, within the corporate limits of the City of Pittsburgh, shall be deemed and held to be guilty of creating a pub-

lic nuisance and of violating the provisions of this ordinance.

Section 7. The general manager, superintendent or fireman, or any other officer of any railroad, or other company, having in charge or control the operation of any engine within the corporate limits of Pittsburgh, who shall suffer, permit or allow such dense black or dense gray smoke to be emitted from such engine, within said corporate limits, shall be deemed guilty of creating a public nuisance and of violating the provisions of this ordinance.

Section 8. Every boiler or other furnace, except in a private residence, and all other boiler furnaces used within the corporate limits of the City of Pittsburgh in which bituminous coal is burned as fuel, shall be so constructed or altered as to have attached thereto such efficient preventives as shall prevent the production and emission of such dense black or dense gray smoke therefrom, and no person or persons, associations or corporation being the owner or lessee, or having control of any such steam boiler or other boiler furnace shall use or allow the use of any such steam boiler or other boiler furnace which shall not be so constructed, or if already constructed at the time of the passage of this ordinance, which shall not be so altered, or shall not have constructed or attached thereto such efficient smoke preventives in good and efficient order and operation.

Section 9. Every person having charge of the igniting, feeding, stoking or attending to any such steam boiler or other boiler furnace, or any smoke preventive constructed or attached thereto, shall so ignite, stoke, feed or attend such furnace fire, and shall keep such furnace and smoke preventives attached thereto in good and efficient order, so that such dense black or dense gray smoke shall not be produced or emitted therefrom.

Section 10. It shall be the duty of the Smoke Inspectors to personally inspect all chimneys, steam generating plants, and all apparatus in use, and to make written reports of the same to the Director of the Department of Public Safety, and to keep a permanent record giving all essential facts relating thereto. If the escape of smoke is the dense black or dense gray smoke which is declared to be a nuisance within the meaning of this ordinance, the Chief Smoke Inspector shall make complaint to persons so maintaining said nuisance, and defining its cause. In event that the cause thereof is unskillful hand stoking, he shall make immediate complaint against any and all such persons violating this ordinance. In event that said nuisance is owing to the construction of the furnace, size or height of stack, connections or other engineering details relating to boiler or boiler furnace construction or connection, he shall make statement of the cause of such nuisance and report to the owners or operators

as to the necessary changes, alterations or additions to be made, and in such case such time in no instance shall exceed more than three (3) months. In the event, however, that it becomes necessary to install stokers, six (6) months shall be given. In the event that it should appear from the inspection of the Smoke Inspector that no change, appliances or alteration of the boiler furnace, boiler furnace connections, stack or appurtenances thereto would eradicate said smoke nuisance, and that said nuisance is owing to the steam generating plant being worked in excess of its normal capacity, or for other organic reason cannot be converted by such changes into a steam generating plant which is not a nuisance, then he shall report to the owners or operators as above mentioned the conditions of such plant and the required changes or additions necessary therein, so that it may not be operated as a nuisance. Not more than four (4) months shall be allowed in which to make such changes, if tubular boilers are to be installed; and in the event of the installation of water tube boilers, not to exceed nine (9) months shall be given for such changes. Notices as above shall be in writing, and at the expiration of the time allowance the Chief Smoke Inspector shall make report as to the condition of plant, and in event it is maintained as a nuisance, shall enter suit, as provided by law, against any and all persons violating this ordinance.

Section 11. All accidents to stationary steam boilers, boiler furnaces or smoke preventing devices in use shall be reported immediately to the Chief Smoke Inspector, giving the nature of the accident and the time required to repair the same.

Section 12. It is hereby made the duty of all patrolmen and officers of the police force of the city to assist said Smoke Inspectors in the performance of their duties, and to report to the Superintendent of Police all violations of the laws directed against the emission of dense smoke coming to their knowledge.

Section 13. When reports of violations of the law are made to the Superintendent of Police by patrolmen and officers of the police force it shall be the duty of said Superintendent of Police, and as soon as practicable after such reports are received by him, to report all such violations to the Chief Smoke Inspector, whose duty it shall be to consider the same without delay.

Section 14. That any ordinance or part of ordinance conflicting with the provisions of this ordinance be and the same is hereby repealed, so far as the same affects this ordinance.

## No. 12

Whereas, The City of Pittsburgh, under a bond issue, raised money for the purchase of property on South Twenty-second street, between Carson and Wharton streets, for an approach to the South Twenty-second street bridge, which was in reality intended by the promoters thereof to be for a better approach to said bridge and a public play-ground, or park; and

Whereas, The said property has been purchased for some time, and is now in such condition that it is a detriment to business people, and property in that immediate neighborhood, and there being no play-ground or park in that section of the City, where it is built up and surrounded by iron and steel mills, glass and other factories, and where it is more necessary than any other owned by the City for the health of the people that there should be an open space or breathing spot for those who toil in such mills and factories; therefore,

Resolved, By the Select and Common Councils of the City of Pittsburgh, That the Director of the Department of Public Works be directed to forthwith raze the buildings on the ground purchased by the City on South Twenty-second Street, and place the said ground in such condition that it may be used as a public play-ground until such time that the City take the same for an approach to the South Twenty-second Street bridge (for which it was purchased), a park, or the proposed South Side branch of the Carnegie Library.
